- vi. Article-ship, will be considered as a part of the OJT structure undertaken by students pursuing CA to meet their diverse needs.
- vii. Students' existing employment or internships related to their major courses pursued during the prescribed period will be considered as a part of the OJT structure.
- viii. Students will have to maintain & submit all documents required by the college under OJT.
 - It was also brought to the notice of the Board that the college had signed an MoU with SHARP agency for providing OJT/Internship opportunities for the PG/UG students.
 - It was suggested by few members to check the feasibility of combining Field Project of Sem V (60 hours) and OJT of Sem VI (120 hours) together though the evaluation for the same to be considered separately. This combined approach would provide students with extended industry exposure, while organizations would benefit from having interns for a longer duration, making it more viable for them to onboard and train students effectively.
 - The members suggested to keep the credits open (For 7 years under NEP) till the student clears his/her graduation. Further, viva-voce to be conducted for such students when the student becomes eligible for Sem VI.

Action Taken on Feedback from Stakeholders

i. Feedback from the Board

In the meeting held on 14th November, the Board of Studies recommended introducing multiple elective courses under major electives for Semester V and VI. This recommendation has been implemented as per the directives.

The Board also recommended certain changes in the framework/structure of BFSI. The said recommendations have been implemented.

ii. Feedback from the Alumni

Alumni feedback suggested including information on methods of working capital and term loans. Based on this feedback, it was decided to cover these topics as part of the Continuous Internal Assessment (CIA) in Semester V- Major Elective – Financial Management.

iii. Feedback from Industry Experts

Industry experts recommended replacing BIFR with NCLT. This change has been incorporated into the Semester VI course – Turnaround Management.

iv. Feedback from Students

Based on informal student feedback and the assessment of Semester I, the faculty recommended introducing two bridge courses—Basic Accountancy and Basic Mathematics—at the entry level. These courses will be mandatory for students from other faculties and, in the case of Basic Mathematics, for those who did not opt for Mathematics in Standard XII (SYJC). Other students may also enroll voluntarily.

It was recommended to delete Indices, Logarithm and Fractions from the course content of Basic Mathematics. It was accepted by the Board and necessary changes has been incorporated in the course content.

The course content of the proposed bridge courses was discussed and the Board unanimously approved the same.

It was further recommended by the Board to introduce a bridge course to help/aid vernacular students in adapting to the curriculum. It was resolved that the matter shall be taken up for discussion by the faculties and implemented, if feasible.
